

10" IP Intercom Touch Screen

ST-3108

Channel Vision's Elite Series IP Intercom Room Station provides video communication and access control to the front door from one central touch screen platform. Users can download an app on their Android phones to receive video push notifications when visitors are at the front door. The app also enables users to control and monitor all of their access points and home technology when away from the house. The IP Touch Screen platform is compatible with the SIM Series and SI-8000 Series IP intercom systems.

FEATURES

- Slim touchscreen design
- Android 4.2 embedded system
- 10" High Resolution Capacitive Touch Screen
- Supports SIP Protocol
- Audio and video recording with TF card
- Support 8 alarm zones for home security
